OHIO CONSTITUTIONAL MODERNIZATION COMMISSION

EDUCATION, PUBLIC INSTITUTIONS, AND LOCAL GOVERNMENT COMMITTEE

THURSDAY, JUNE 9, 2016
9:30 A.M.
OHIO STATEHOUSE ROOM 017

AGENDA

I. Call to Order

II. Roll Call

III. Approval of Minutes

➢ Meeting of April 14, 2016

[Draft Minutes – attached]

IV. Presentations

➢ “Article VI, Section 5 – Loans for Higher Education”

David H. Harmon
Executive Director, Ohio Student Loan Commission (1984-1988)

Rae Ann Estep
Executive Director, Ohio Student Aid Commission (1994-1997)

V. Reports and Recommendations

➢ Article VI, Section 3 (Public School System, Boards of Education)
  • Second Presentation
  • Public Comment
  • Discussion
  • Possible Action Item: Consideration and Adoption

[Report and Recommendation – attached]
VI. Committee Discussion

➤ Article VI, Section 6 – Tuition Credits Program

The chair will lead discussion to assess the sense of the committee regarding what position it wishes to take regarding any possible change to the constitutional provision on the Tuition Credits Program.

[Testimony of Timothy C. Gorrell, Executive Director, Ohio Tuition Trust Authority, presented to the Education, Public Institutions, and Local Government Committee at its April 14, 2016 meeting – attached]

VII. Next Steps

➤ The chair will lead discussion regarding the next steps the committee wishes to take in preparation for upcoming meetings.

[Planning Worksheet – attached]

VIII. Old Business

IX. New Business

X. Public Comment

XI. Adjourn
Call to Order:

Chair Chad Readler called the meeting of the Education, Public Institutions, and Local Government Committee to order at 9:41 a.m.

Members Present:

A quorum was present with Chair Readler, Vice-chair Gilbert, and committee members Beckett, Coley, Cupp, Curtin, Sawyer, and Taft in attendance.

Approval of Minutes:

The minutes of the February 11, 2016 meeting of the committee were approved.

Presentation:

Article VI, Section 6 (Tuition Trust Authority)

Chair Readler began the meeting by noting the committee would be receiving a presentation on Article VI, Section 6 dealing with the Ohio Tuition Trust Authority.

Timothy Gorrell
Executive Director
Ohio Tuition Trust Authority

Chair Readler introduced Timothy Gorrell, executive director of the Ohio Tuition Trust Authority (OTTA), an agency within the Department of Higher Education charged with responsibility for administering the tuition credits program set forth in Article VI, Section 6.

Mr. Gorrell indicated the OTTA originally was created in 1989 under R.C. Chapter 3334, with the purpose of helping families save for higher education expenses. He continued that, in
November 1994, Ohio voters approved State Issue 3, a constitutional amendment that provided the state’s full faith and credit backing for the Ohio Prepaid Tuition Program (now known as the Guaranteed Savings Plan), and to clarify the federal tax treatment of that plan.

According to Mr. Gorrell, in 1996, Section 529 was added to the Federal Internal Revenue Code to provide a federal tax-advantaged way to save for college education expenses. Then, in 2000, the Ohio General Assembly authorized Ohio to offer variable savings plans, as well as allowing a state tax benefit by which Ohio residents can deduct up to $2,000 a year, per beneficiary, from their Ohio taxable income.

In December 2003 the Guaranteed Savings Plan was closed to contributions and new enrollments in response to rapidly rising tuition costs and investment pressures due to the market environment, said Mr. Gorrell. Then, in 2009, existing legislation was changed to place OTTA under the Department of Higher Education, with the role of OTTA’s 11-member board being limited to a fiduciary duty over the investments in OTTA’s college savings plans.

Mr. Gorrell described OTTA as a “non-General Revenue Fund, self-funded agency,” with all of its operating expenses being funded through account fees paid by CollegeAdvantage Program account owners.

Mr. Gorrell said OTTA currently sponsors three plans under the CollegeAdvantage 529 College Savings Program. He said funds invested in these plans may be used at any accredited college or university in the country, as well as at trade schools and for other education programs that are eligible to participate in federal financial aid programs. According to Mr. Gorrell, across the three plans, OTTA directly manages or oversees over 641,000 accounts and $9.4 billion in assets as of March 31, 2016.

Mr. Gorrell further explained that, in November 1994, by adopting Article VI, Section 6, Ohio voters approved providing the Guaranteed Savings Plan with the full faith and credit backing of the state, meaning that, if assets are not sufficient to cover Guaranteed Savings Plan liabilities, the Ohio General Assembly will appropriate money to offset the deficiency.

Mr. Gorrell also indicated that OTTA has the responsibility to generate investment returns on assets to match any growth in tuition obligations, noting that, currently, OTTA has sufficient assets on a cash basis to meet the payout obligations of the existing tuition units and credits held by account owners.

Mr. Gorrell concluded that Ohio’s CollegeAdvantage 529 College Savings Program, including the Guaranteed Savings Plan, helps Ohioans and others across the country save over time to help offset the future costs of higher education.

He said OTTA does not recommend any changes to the existing Article VI, Section 6 of the Ohio Constitution. Reiterating that the purposes of the constitutional amendment were (1) to clarify federal tax treatment of the Guaranteed Savings Plan, and (2) to provide the Guaranteed Savings Plan with the full faith and credit backing of the State of Ohio, he said the federal tax goal of the provision came from a period of unsettled case law that created uncertainty as to whether similar prepaid tuition programs were exempt from federal taxation. Because that uncertainty has since
been resolved by the codification of Internal Revenue Code Section 529, he said the constitutional provision is no longer necessary to clarify federal tax treatment of such plans. However, he said, with regard to the second purpose of establishing the full faith and credit backing of the Guaranteed Savings Plan, OTTA defers to experts in Ohio constitutional law as to whether the constitutional language is necessary to maintain that guarantee. He said OTTA believes its duty is to continue to service the existing Guaranteed Savings Plan account holders and to manage the investments in a way that minimizes risk to the state under the guarantee.

Chair Readler asked whether Article VI, Section 6(A) continues to have a purpose. Mr. Gorrell answered that his understanding is that when the plans began in the 1990s, these types of college savings plans were just starting up and many were guaranteed plans. He said at that time there were concerns about the status of the plans under federal tax law, and no federal guidelines. He said Ohio decided to address that concern, but after the constitutional amendment was adopted and the federal government caught up by codifying Section 529, Article VI, Section 6(A) was no longer necessary.

Chair Readler followed up, asking if Mr. Gorrell agreed that it is not necessary to remove Section 6(A). Mr. Gorrell said the Guaranteed Savings Plan has been closed since 2003, with each year having fewer account holders, so there will be a time in the future when the fund will not exist anymore. He concluded that the question of whether there needs to be a constitutional provision or not will be answered by the passage of time.

There being no further questions, Chair Readler thanked Mr. Gorrell for his presentation.

*Article VI, Section 4 (State Board of Education)*

Chair Readler then turned the committee’s attention to its continuing consideration of Article VI, Section 4, relating to the state board of education and provision for the appointment of a state superintendent of public instruction.

*Russell Harris*

*Ohio Education Association*

Chair Readler recognized Russell Harris, education research development consultant for the Ohio Education Association (OEA), an organization that represents 122,000 educators across the state. Mr. Harris indicated that he was appearing to express the OEA’s concerns relating to the suggestion that the state board of education be an all-appointed board.

Indicating the OEA has had a longstanding policy that supports an all-elected state board, Mr. Harris noted that state board members are among the few public officials who are considered to be “non-partisan.” He said an all-appointed board would not be less political, and that, although there are some appointed board members in the current system, “having an all-appointed board would make it more vulnerable to the political whims of whoever is governor.”

Mr. Harris said, in 1994, when the then-sitting board refused to appeal the state’s loss in the *DeRolph* school funding case, the governor called for an all-appointed board. He said the General Assembly rejected this idea, but compromised by creating the current hybrid board
consisting of eight gubernatorial appointees and eleven elected representatives from districts that are each comprised of three state senate districts.

Mr. Harris continued that, while the current hybrid board has at times been subject to partisan politics, it also has agreed on important issues such as the need for stronger oversight and accountability for charter schools. He said having elected board members has made the overall board more responsive to the public's desire for reform. Nevertheless, he added there are still many instances where the votes of the board are “along party lines,” with appointed members joining with members of their own party to form a working majority on most votes.

He said it is not clear just who the appointed or at-large members of the board represent. He said they may represent people in their home school district or county, or they may be carrying out the wishes of the governor who appointed them. In any event, he continued, they do not have to answer to the voters.

Mr. Harris concluded that, in order to best serve the needs of Ohio’s students, the state board should be an independent voice for public education. He said an autonomous, all-elected board can better advocate for high-quality educational opportunities for all children, and for providing resources based on educational needs instead of political expedience.

Chair Readler thanked Mr. Harris for his remarks, asking Mr. Harris whether one of the speakers who had presented to the committee had proposed that the state board of education be all-appointed. Mr. Harris said the only speaker who had advocated for an all-appointed board was Tom Gunlock, current president of the State Board of Education. Chair Readler disagreed, saying his recollection was that Mr. Gunlock had suggested several possibilities for improvement, with one possibility being an all-appointed board.

Mr. Ed Gilbert asked whether Mr. Harris had suggestions regarding whether the superintendent should be elected or appointed. Mr. Harris had said the OEA does not have an official position on that question, but has always operated under the model that the state board has one employee, who is the superintendent, and that the board has the ability to hire and fire the state superintendent. He noted there are only 13 states that have an elected superintendent, thus, in the majority of cases, the board has control over the state superintendent.

Chair Readler noted that in a majority of states the governor appoints the board members, unlike Ohio, adding that even though the state board is picking the superintendent, the governor is picking the board.

Representative Michael Curtin commented that all all-appointed boards are not created equal, suggesting that providing safeguards as to what sort of candidates would be forwarded to the governor for his consideration could help improve the composition of the board. He said, for example, there could be a nominating council to vet and forward names to the governor, and the council could be comprised of experienced stakeholders. He added that there could be criteria for who could be considered for a nomination. He said, for example, the candidate could be required to have served two terms on a local board of education before being considered, there could be a requirement for interviews by the council along with the council’s approval by a supermajority vote (2/3 for example), followed by consent of the Senate by supermajority vote.
He asked Mr. Harris, if such a procedure were in place, whether the OEA would still oppose any type of appointment to the board.

Mr. Harris said Rep. Curtin’s suggestion was an interesting prescription for the board’s configuration, and would be better than the current structure. He said Rep. Curtin’s plan would improve the appointment process, and that OEA would have to see the details. However, he said his organization would look at that plan much more favorably than it views the current system.

Senator Tom Sawyer asked whether Mr. Harris could describe how an all-elected board differs from a hybrid board in terms of problem-solving and decision-making. Mr. Harris said there are eleven races for the state board, noting that seven of the seats are up for a vote in November, and that for the last three election cycles there have been seven board member seats contested each time. He said there has been a great deal of campaigning for state board positions. Based on his experience attending all board meetings, he said he has noticed that elected members are aware of regional, parent, and local board concerns particularly relating to high-stakes testing. He said he has seen fair and well-intended resolutions go down, and said there would be a difference if it were an all-elected board. He emphasized the importance of removing topics from the governor’s administration, citing this as a way of preventing recent scandals. He noted that when the General Education Development (GED) program was taken out of the Department of Education and given to a private firm, the price increased and there are many fewer GEDs being given now. He said board members are upset, and would like to work with the legislature to get it back into the hands of the department, but the elected members are sensitive to the preferences of the public while appointed members are not because they look to the administration’s view. He said he thinks things would be different if there were an all-elected board, and the autonomy that goes with that.

Mr. Harris cited the current trend in which there is frequent turnover of the superintendent as one symptom of the problem, indicating that superintendents would not be forced out if there were an all-elected board. He said, however, that state board districts are unwieldy, with three senate districts together making one state board district. He said the current system results in a huge geographical area, with approximately 900,000 or more voters in each district.

Chair Readler asked whether Mr. Harris is proposing a board with 33 members, to which Mr. Harris said no, but that the districts are too big. He said the solution would be to follow the lines of Congressional districts.

Committee member Roger Beckett said currently the constitution is silent on the question of how the state board is selected; it is left to the legislature. He asked whether it is the association's position that the method of selecting the board should be taken out of statute and put in constitution. Mr. Harris said that would be OEA’s first preference, and that OEA wants a constitutional amendment for all-elected board. Nevertheless, he said, OEA recognizes that statutes allow some flexibility because times change, technology changes, and the legislature needs to react. So, he said, the first preference would be for a constitutional amendment, and the second preference would be to leave Section 4 the way it is.

Senator Bill Coley said legislators generally care more about the opinions of the local boards in their home districts rather than those of the state board. He said he does not foresee a possibility
that the General Assembly would cede authority over education or educational funding to the state board. He asked whether, given that reality, a state board of education is necessary. He also wondered why it would not work to have a superintendent who is a member of the governor’s cabinet.

Mr. Harris answered that the state needs a state board to implement legislation enacted at both state and federal levels, to set standards, and to define and coordinate rules. He said he agrees the legislature should not give up authority to provide funding and set direction, but implementing educational policy needs to be done by education professionals, not political professionals. He said that can be accomplished better with an all-elected state board.

Governor Bob Taft noted that, at the committee’s last meeting, Senator Peggy Lehner had recommended that the superintendent be a member of the governor's cabinet appointed by the governor, but that the person would not change with every administration. He said the most interesting part of her testimony was her observation that the primary function of the board is to set a clear educational vision for the state, and to provide a long-term strategic plan or road map for everyone to follow. He said Sen. Lehner recommended that the board include key stakeholders selected on the basis of their expertise. He said he found that plan interesting, and suggested that the state board could include parents, or business leaders, for instance. Gov. Taft asked for Mr. Harris’ reaction to Sen. Lehner’s model.

Mr. Harris said he worked for the secretary of education in Pennsylvania for many years, and there that model worked very well, and under that model there was a lot of coordination with other members of governor's cabinet. He said, in a sense that plan moved things up a level to the cabinet level. He continued, if there were stronger, more representative, and experienced members of the board, they could lay out that vision, advocate programs and resources for children, and could deal with a secretary of education or other title who is in the governor's cabinet. But, he said, governors change and secretaries of education change. He asserted the reason for there being only a few superintendents over a span of 35 years was that the all-elected board was independent and autonomous and acted to maintain that continuity. He concluded, there are good attributes to both models, but there is a huge disruption to the educational improvement process when you change superintendents at the same time you change governors.

Gov. Taft noted he likes the concept of prescribing the nature of who is on board, requiring members who specifically represent the interests of teachers, school boards, and parents, for example, and selecting from a pool of candidates representing each seat.

Mr. Harris said that plan relates to the best aspects of Rep. Curtin’s suggestion, and reduces the problem of board members having no background in educational policy. Mr. Harris said, if Ohio had a system with those requirements, it would be a better system than the current system.

Chair Readler commented on the need to take politics out of education. He asked how the system could be made less political. He said he is not sure the constitution should prescribe the selection of the members. He said the Pennsylvania model is very governor-dominated. He asked Mr. Harris whether, under the current constitutional language, change is being inhibited because the board is required to appoint the superintendent. He said the constitution has tied the hands of groups that want to resolve these issues.
Mr. Harris said the fact that the state superintendent is the single employee of the board has been a good model and has allowed for the independence and autonomy of the state board through the decades with the result that the board has had a nonpartisan history. He said he would be hesitant to take that authority away from the state board and give it to the governor unless things really changed and there were a system such as described by Rep. Curtin and Gov. Taft.

Chair Readler commented that he would like to make the process less political, but he is not sure how. Mr. Harris gave school funding as an example, saying he worked on seven school funding cases across the country and that, because of the money involved, they politicized education in an unnecessary way. He said 49 states have now had school funding litigation. He said the conversation about education becomes about budgets, budget residuals, and the politics of spending, and not about the needs of children, or the educational system. He remarked, “we need to get the conversation back to the educational needs of the students,” adding the focus should be on the efficient administration of schools, and encouraging the best people to be teachers. He emphasized, “we need a strong, well-qualified board of education to take that on.”

Mr. Gilbert said he has a concern about Mr. Harris’ proposal to provide for an all-elected board in the constitution because the state’s history of gerrymandering has made the African American community concerned about being pushed out of the educational process. He said he does not know the current makeup of the board, but is concerned that if it is all-elected it will exclude African Americans, who predominantly rely on the public school system.

Mr. Harris noted that Sen. Sawyer has worked on that problem. He said Ohio badly needs redistricting reform, with fair districts for both the General Assembly and Congress. He said, until that happens, Mr. Gilbert’s concerns are valid because of the way the districts are drawn. Mr. Harris said he is optimistic and hopeful regarding redistricting reform. But, he said, in addition to the problems and solutions noted by Rep. Curtin and Gov. Taft, there should be diversity on the state board; thus, the criteria for choosing board members should include candidates who can serve minorities with expertise.

Mr. Gilbert asked about the current makeup of the board. Mr. Harris said there are many women members, and one Hispanic member, but no African American members of the board. He said all members realize diversity is a big problem.

There being no further questions for Mr. Harris, Chair Readler thanked him for his presentation.

Discussion:

Chair Readler then led the committee in its discussion of possible recommendations for Article VI, Section 4.

Mr. Beckett said consideration of Section 4 poses some complex questions. He said, in his view, there are parts of the section that bind the hands of the legislature, for example, there is no constitutional provision relating to the board of higher education or its chancellor, and therefore there is a forced separation between K-12 and higher education. He said, in recent years, states have begun to blend both of those educational systems, recognizing that some overlap is helpful.
As a way of assisting the committee in considering possible revisions to Section 4, Mr. Beckett proposed a revision that would broaden the General Assembly’s ability to include higher education, giving the legislature more flexibility. He said his proposal also removes the constitutional requirement that there be a superintendent who is appointed by the state board. He said this does not mean there should not be a state board, but, rather, that the legislature should have the flexibility to best determine how appointments should made or how K-12 and higher education work together.

Mr. Beckett proposed the following language for Article VI, Section 4:

> To oversee education in this state, the General Assembly may provide for boards, departments, and directors that may be selected in such manner and for such terms as may be provided by law, and may prescribe by law their respective powers and duties.

Gov. Taft commended Mr. Beckett on his proposal, and said he thinks it is something the committee should seriously consider. He said, although the committee has not formally discussed this until now, it is clear that there are many views on the issue, noting his own views and those of Senator Peggy Lehner, who presented to the committee at its February 2016 meeting. He said, as compared with the local boards of education, he is not sure that the state board provides a significant measure of accountability given the size of the state board districts. Gov. Taft said the constitution has good language already that ought to be retained, for instance Article VI, Sections 2 and 3. He said language in those sections covers the educational needs of the state. He said his first inclination would be to totally remove Section 4, but that would be interpreted as a recommendation to eliminate the state board, which is not his intent.

Sen. Sawyer, expanding on Gov. Taft’s comments, said the Ohio Constitution is modeled on the United States Constitution, which describes the functions the government is called to undertake and how Congress is to fulfill those responsibilities. He said this flexibility is expanded on in Mr. Beckett’s proposal, which gives clarity, and reflects a goal of considering the changing nature of education in modern environment. He said he believes the proposal provides for the latitude the legislature needs, but should be combined with an electoral environment in which an elected board can provide the right circumstances for an appointed superintendent. He said while there are many formats by which that could be achieved, he would like to provide for the legislature to do that.

Mr. Gilbert said he appreciates what Mr. Beckett has proposed, but his concern is that the draft language does not require the General Assembly to do anything because it does not use the word “shall.” He said that sends a bad signal to the public. He said the current language is a mandate, but under Mr. Beckett’s proposal the legislature could decide to do nothing. He said a second problem is that the proposal ignores the problems that resulted in the DeRolph litigation, which is that poor districts were suffering because no one cared. He said there ought to be mandated language, and there must be some thought given to quality across-the-board for all school districts.

Rep. Curtin said he is concerned about the proposal, noting if this were the new Article VI, Section 4, it would wipe out the state board and the superintendent, replacing them with the great
unknown. He said, despite concerns, the existing section has served the state well. He said, “we have been trying to solve for partisanship, and increase the level of expertise of board members, but this exacerbates the problem because it gives the General Assembly the opportunity to do nothing and to leave it to the governor.”

Chair Readler said he agrees the proposal has some unknown aspects, leaving details to be addressed at some point. He observed the majority of states create state boards by statute and have resolved problems by having some kind of role for the governor. He said Ohio is the only state that has a constitutional superintendent of public instruction. Chair Readler said Mr. Beckett’s proposal would seem to take Ohio closer to other states, but that does not mean they are right and Ohio is wrong. Chair Readler asked Rep. Curtin if he has thoughts on how to ameliorate the concern about the unknown result of the proposed change.

Rep. Curtin said it is not possible to change Section 4 without a vote of the people, and, further, it would be necessary to have the support of stakeholders. He said the proposal, as drafted, “would invite warfare; we wouldn’t get it out of the Commission.” He remarked, “ideological warfare is at an all-time high, primarily because of gerrymandered districts.”

Mr. Beckett said, as a public member, he does not have knowledge of legislative concerns but can appreciate them. Responding to Gov. Taft, Mr. Beckett said what his proposal does could be addressed under Article VI, Sections 2 and 3. He agreed that eliminating Section 4 would be a mistake, and said he is not suggesting that. He agreed the proposal could be revised to include mandatory language. Mr. Beckett said he shares Rep. Curtin’s concern about how this might unfold, but noted it could be “the worst solution except for all the alternatives.” He said it would be a mistake to be more specific in the constitution, a result that concerns him. He said he wants to give the legislature the ability to address issues more effectively, rather than to allow the legislature to avoid the issues.

Sen. Coley commented that the proposed draft is a good starting point. He observed that sometimes people take questions as advocacy, cautioning that no one is suggesting that the state board be abolished. He suggested including a trigger mechanism so that the change would not take effect until 2023. He said, at that point, concerns would be alleviated because districts would be redrawn.

Rep. Curtin emphasized the importance of placing education in the hands of professionals. He said he would worry about turning policy over to the General Assembly. He said some things are so important that politics should be limited, and that nothing is more worthy of that goal than K-12 education. He said this type of proposal runs counter to the shared goal of reducing partisanship in education, suggesting that “if we could have a proposal that captures our shared goal of lowering partisanship and increasing expertise than we are onto something.”

Gov. Taft noted the role of the superintendent of public instruction in Ohio is for K-12, but that Florida has combined all educational sectors. He said, looking forward, the committee might want to preserve the option to have K-12 combined with higher education.
Mr. Gilbert agreed, saying “we need to look at expertise in the educational field.” He added that Mr. Beckett has done “an excellent job raising our attention to these matters, but to move forward we should turn to counsel, absorb comments, and come up with some alternatives.”

Sen. Sawyer commented that, as the committee progresses, it is important to remember the distinction between development of policy by the state board, and the administration of policy by the Department of Education. He said making sure the requirements of thoroughness and efficiency are carried out as a matter of policy should be done without regard to politics and partisanship. He continued, if there is a place where policy can be altered over time through elected board members, that is where democracy comes in. He concluded it is important to make sure the work of the Department of Education reflects the intended will of the elected board.

Gov. Taft asked whether staff could draft language that, without specifying who should be on the state board, would encourage the legislature to provide specifics that would secure greater expertise on the state board.

Rep. Curtin noted that many state boards reserve seats for people with expertise. But, he said, that is a matter for legislation, adding that, by statute, many boards are required to have certain members with expertise. He agreed that draft language would be useful.

Sen. Sawyer agreed with Rep. Curtin’s comment, saying the boards are where the General Assembly puts expertise within the departments.

Chair Readler asked whether requiring expertise should be part of the constitution, noting he is a minimalist and is not sure whether that is a subject for legislation. He wondered if there could be a proposal that would satisfy everyone.

Mr. Beckett said if the committee agrees to something along these lines, the legislature is going to have to act. He suggested the committee consult with the legislature. He remarked, “we have to be able to go to the voters and say this is intended to fix that problem.”

Rep. Curtin said, if the committee has staff follow up by providing draft language, there would be something for legislators to consider. He cautioned, however, that he does not want to propose something that would “create a firestorm in the educational community.”

Chair Readler asked how the committee should proceed. Sen. Coley suggested draft language could be a staff project.

Sen. Sawyer said he would want to provide the least-prescriptive mandate, noting that, under the U.S. Constitution, when there is a function created, it requires Congress to take action.

Rep. Curtin suggested a draft include a trigger date that is out several years. He said this will reduce anxiety and give time to deliberate.

Gov. Taft suggested staff have one version of proposed language that deals with the composition of the board, including the proposals suggested by Sen. Lehner as expressed in her presentation to the committee. He added there should be a succinct statement of purpose, such as “there shall
be a state board of education with authority to prescribe a clear vision for education in this state.” He said it would be useful to consider defining the role of the board in terms of long-term vision and planning in the state. He added he would encourage legislative members to convene with their respective caucuses to help refine language.

Rep. Curtin said if the committee has drafts of both statutory and constitutional language, the committee should allow the interested groups who have testified to offer more commentary on the direction of the committee, adding this would give the groups an opportunity to study the proposal.

Chair Readler emphasized the committee has been receptive to the public, and encouraged participation by interested groups.

**New Business:**

Chair Readler then asked if there was new business to come before the committee. Sen. Coley directed the committee’s attention to Article XV, Section 6 (Lotteries, Charitable Bingo, Casino Gambling), noting that the proscriptive language used in that section does not belong in constitution. He said he would like a presentation on that issue, asking that the question be revisited because of the monopoly issue that voters passed in November 2015. He said he would like to look at that issue as a committee because it is an area ripe for consideration now that the anti-monopoly provision passed. He noted the General Assembly has allowed promotional gaming, which has cost schools, a result that was not the intention of the voters. He said the committee might find a presentation on that topic interesting.

Chair Readler said Article XV, Section 6 is on the committee’s list, but maybe at the next meeting the committee can discuss when is the most appropriate time to bring that up.

**Adjournment:**

With no further business to come before the committee, the meeting adjourned at 11:24 a.m.

**Approval:**

The minutes of the April 14, 2016 meeting of the Education, Public Institutions, and Local Government Committee were approved at the June 9, 2016 meeting of the committee.
This page intentionally left blank.
The Education, Public Institutions, and Local Government Committee of the Ohio Constitutional Modernization Commission issues this report and recommendation regarding Article VI, Section 3 of the Ohio Constitution concerning the public school system and boards of education. It is issued pursuant to Rule 8.2 of the Ohio Constitutional Modernization Commission’s Rules of Procedure and Conduct.

Recommendation

The committee recommends that no change be made to Article VI, Section 3 of the Ohio Constitution and that the provision be retained in its current form.

Background

Article VI, Section 3 reads as follows:

Provision shall be made by law for the organization, administration and control of the public school system of the state supported by public funds: provided, that each school district embraced wholly or in part within any city shall have the power by referendum vote to determine for itself the number of members and the organization of the district board of education, and provision shall be made by law for the exercise of this power by such school districts.

Article VI of the Ohio Constitution concerns education.

Article VI, Section 3 was one of the constitutional amendments adopted during the Progressive Era, a time of social and political change that reformed multiple institutions, including the public education system. One of 42 amendments proposed by delegates to the 1912 Ohio Constitutional Convention, Article VI, Section 3 created, for the first time, a constitutional,
statewide framework for school governance by mandating law that would organize, administer, and control a statewide public school system while allowing city school districts the power by referendum to organize their own school boards. In a special election held September 3, 1912, Article VI, Section 3 was one of 34 successful proposals to come out of the convention, and was approved by a voting margin of 298,460 to 213,337.

This section contains two discrete provisions. The first clause deals with state control of the public school system. The second clause gives the voters in city school districts power over the size and organization of local boards of education.

The first clause in the section provides for state supervision of the public schools by stating that “[p]rovision shall be made by law for the organization, administration and control of the public school system * * * .” The culmination of many years of work by supporters of state control of education, the provision also was intended to assure that the power of home rule would be extended to cities (in proposed Article XVIII) and would not be used to undercut state control of education. Columbus delegate to the convention, George W. Knight, a professor from Ohio State University and a strong supporter of both the education provision and home rule, in arguing for Section 3, made clear his position that the state, not local government, should control education:

[This provision] must be adopted in order to establish definitely that the state shall for all time, until the constitution is further amended, have complete control over the educational system, and that no city, village or part of territory of the state can withdraw itself, under the guise of a charter, from the public educational system of the state.

At one point during the convention, an earlier version of this provision extended state control to the “public school and educational system of the state[,]” but the reference to “and educational” was dropped to assuage concerns that the provision could give the state too much control over higher education, which at the time consisted of Ohio University, Miami University, and Ohio State University. In addition, the modification of “public school system of the state,” with the addition of the phrase “supported by public funds,” made clear that the provision did not extend state control to parochial schools.

The work of the convention in centralizing control over education was summarized as follows:

The delegates did not “contemplate taking out of the hands of the local authorities the control and administration of their local schools, but gave to the state beyond any question, the right to fix the standard and the right to organize an entire system, leaving to each local community the determination of the schools in the system.” The vision was “one complete educational system for the schools and all educational institutions supported by public taxation.”

Seeking to emphasize state control over education, convention delegates adopted language that explicitly empowered the General Assembly to make laws governing the public school system.
Delegates also sought to eliminate the possibility that cities acting under an expanded home rule power could interfere with the role of the state in controlling education.\(^8\)

Section 3 also gives voters in some, but not all, school districts the power to determine by referendum the number of members and the organization of the district board of education. Voter control of local school districts, however, applies only to school districts “embraced wholly or in part within any city” and thus does not extend to “non-city” school districts. Although the section provides each city school district with the ability to set the number of board members, and to determine the board’s organization, it has not been interpreted as giving the district power to appoint the actual members of the board. *See E. Liverpool Edn. Assn. v. E. Liverpool City School Dist. Bd. of Edn.*, 177 Ohio App.3d 87, 893 N.E.2d 916 (2008).

In an essay written for the Ohio Centennial Anniversary Celebration in Chillicothe on May 20-21, 1903, Lewis Bonebrake identified four categories of school districts: city, township, village, and special. He then described the proliferation of school districts in Ohio, observing that there were 2,437 different districts, of which 66 were city districts, 1,036 were village and special districts, and 1,035 were township districts. The boards of education in city districts ranged from three members in Wooster and Delaware, to 31 in Cincinnati. In some city districts, the boards were elected at large, in some by wards, and in some by both wards and at large. The boards in the township, village, and special districts ranged from three to six members.\(^9\) As reported by the Ohio School Boards Association, Ohio currently has 613 traditional public school districts, 55 educational service centers, and 49 joint vocational school districts.\(^10\)

Delegates to the 1912 Convention were concerned about the size of local school boards, and the inability or unwillingness of school boards to use their power under existing law to address issues concerning their size and their organization. For example, according to George W. Harris, a Cincinnati delegate to the convention, cities of over 50,000 had authority to change (i.e., reduce) the size of school boards only if the local board agreed, but “[t]he larger boards *** refuse to vote themselves out of office * * *.”\(^11\) Delegates addressed this issue by requiring that the number of members and the organization of the district board of education could be determined by the voters by referendum. Thus, voters were given an explicit constitutional role in the organization of school boards.

The power of local school districts to determine their size and organization did not, however, extend to all school districts. Earlier versions of the section applied the referendum requirement to all school districts, but some representatives of rural districts objected to the application of the provision to them.\(^12\) To accommodate the rural districts, the second clause was phrased so as to apply only to those districts “embraced wholly or in part within any city.” Thus, the voters in rural school districts that served villages and townships were not given a constitutionally-mandated role in the size and organization of their school boards.\(^13\)

**Amendments, Proposed Amendments, and Other Review**

In 1977, the Ohio Constitutional Revision Commission (“1970s Commission”) recommended no change to Article VI.\(^14\) Although the 1970s Commission generally reviewed the topic of “Educational Governance,” the substance of the analysis related to Article VI, Section 4, dealing with the state board of education, rather than local boards of education. While the record of the
1970s Commission does not reveal a rationale for maintaining this section in its present form, the 1970s Commission did base at least part of its recommendation for no change on the view that revision, if needed, could be accomplished through legislative measures rather than by constitutional amendment.¹⁵

Litigation Involving the Provision

Ohio courts have determined that Article VI, Section 3 allows the General Assembly to enact legislation authorizing county boards of education to arrange districts and change boundary lines as long as the county boards do not “act unreasonably or in bad faith in effecting the creation of a new district.” See Smith v. Bd. of Educ., 97 Ohio App. 507, 519-20, 127 N.E.2d 623, 630 (1954). Section 3 has been found to support legislation that would reorganize a school district by requiring an affirmative vote of 55 percent of the vote in the new district unless 75 percent of the voters in any district oppose the reorganization. See State ex rel. Groh v. Bd. of Educ. of W. Clermont Local Sch. Dist., 169 Ohio St. 54, 54, 157 N.E.2d 325, 326 (1959) (syllabus at number 1). Section 3 also has been interpreted to allow the state to create charter schools as part of the state’s program of education. State ex rel. Ohio Congress of Parents & Teachers v. State Bd. of Educ., 111 Ohio St.3d 568, 581, 857 N.W.2d 1148, 1162 (2006) (“By choosing to create community schools as part of the state’s program of education, but independent of school districts, the General Assembly has not intruded on the powers of city school boards.”).

The power of the General Assembly over school districts was summarized by the Ohio Supreme Court in State ex rel. Core v. Green, 160 Ohio St. 175, 180, 115 N.E.2d 157, 160 (1953):

[T]he General Assembly has the power to provide for the creation of school districts, for changes and modifications thereof, and for the methods by which changes and modifications may be accomplished, and, where it has provided methods by which changes in school districts may be made, no citizen has a vested or contractual right to the continuation of such methods, and if a particular method is abolished or changed by legislative enactment there can be no basis for a claim that a contractual or vested right is impaired.

Because Article VI, Section 3 does not address when voters may conduct referenda, some litigation has focused on the timing of the referenda guaranteed by the section. The issue of timing came up in 1914, after the General Assembly adopted the Jung Small School-Board Act (hereafter “Jung Act”). The Jung Act classified and organized city school districts and their respective school board members by using three general categories based on population, and by creating a schedule of activities that could delay for two years the referendum on the size and organization of school boards.

In State ex rel. Ach v. Evans, 90 Ohio St. 243, 107 N.E. 537 (1914), the Ohio Supreme Court rejected an argument that the time for a vote specified in the Jung Act was unconstitutional. In Evans, it was asserted the General Assembly had violated Article VI, Section 3 by permitting as long as a two-year delay before the required referendum vote. Resting on the premise that a statute cannot be held unconstitutional simply because it imposes an objectionable time frame, the court emphasized that the legislature is presumed to have acted in good faith, and that “[t]he
mere suggestion by counsel that this necessarily carries a referendum election beyond the time of
the first regular November election for members of the school board cannot be used as the basis
of a claim of unconstitutionality. Statutes cannot be held unconstitutional upon the ground that
somebody disagrees with the Legislature as to the time at which an act should take effect.” Id.,
90 Ohio St. at 247-48, 107 N.E. at 538.

The timing issue arose again in the 1990s in litigation challenging a state statute that organized
the Cleveland Municipal School District Board of Education to give the mayor authority to
appoint a nine-member board. Previously, the district was governed by a seven-member elected
board, but a statute adopted in the wake of desegregation litigation provided for a referendum in
the first even-numbered year occurring at least four years after the board appointed by the mayor
assumed control of the district. The statute did not refer to the Cleveland district by name, but
rather referred to districts under federal desegregation orders (which only included Cleveland).

Challenged in both state and federal courts, the statute first was reviewed on the merits by the
federal courts. Upholding the statute, the United States Court of Appeals for the Sixth Circuit in
Mixon v. State of Ohio, 193 F.3d 389 (6th Cir. 1999), focused on the argument that there was a
two-year time limit for holding a referendum. Relying on the 1914 Ohio Supreme Court
decision in Evans, supra, the court held that “the referendum provision did not require that voters
approve any legislative change to the organization of the boards of education in Ohio cities
before the legislature can enact and implement such changes.” Id. at 400-01.

In so ruling, the court interpreted Evans as follows:

Evans held that the legislature may make such changes without voter pre-approval
so long as it provides the voters with an opportunity at a later date to vote on the
changes. Id. (“It is obvious that this provision of the Constitution does not require
that, before any change shall be made in the old board, a referendum shall be
provided determining what change shall be made.”); see also State ex rel. Core v.
Green, [supra] (holding that the legislature may change the organization and
control of the public schools without holding an immediate public referendum).
Absent a showing of bad faith on the part of the legislature, the court determined
that the Jung Bill did not conflict with the referendum provision of the Ohio
Constitution because the Jung Bill provided for a referendum within a reasonable
time. See Evans, 107 N.E. at 538 (“Statutes cannot be held unconstitutional upon
the ground that somebody disagrees with the Legislature as to the time at which
an act should take effect. The Legislature is presumed to have acted in good faith,
and there is nothing in the record to overcome that presumption.”). Evans thus
implied that the legislature could wait two years before submitting the school
district changes to a referendum.

Mixon, supra, at 401.

Finally, the Sixth Circuit noted that Article XVIII, Section 5, another referendum provision that
dated back to the 1912 Constitutional Convention, explicitly required a referendum before a
challenged ordinance involving public utilities would take effect. The court then concluded as follows:

Had the drafters of the Ohio Constitution wanted a similar express limitation in Article VI, Section 3, it is likely they would have included similar language in that provision. The fact that they did not evinces their intent that discretion regarding the timing of referenda under Article VI, Section 3, should rest with the legislature, which has determined that four years between referenda is acceptable.”

*Id.*

Similar litigation took place in the Ohio courts, with the Court of Appeals for the Eighth District in *Malcolm-Smith v. Goff*, 8th Dist. Cuyahoga App. No.1999 WL 961495, 1999 Ohio App. LEXIS 4915 (Oct. 21, 1999), rejecting the conclusion and analysis in *Mixon* and instead holding that the four-year delay violated the Ohio Constitution. In so ruling, the court treated the two-year time limit in *Evans* as an outside limit for holding a referendum. The Ohio Supreme Court, however, reversed that decision on the basis of claim preclusion, and did not discuss the merits of the state constitutional issue. *See Malcolm-Smith v. Goff*, 90 Ohio St.3d 316, 738 N.E.2d 793 (2000).17

Neither the decision of the Sixth Circuit in *Mixon*, nor the reversed decision of the Eighth District Court of Appeals in *Malcolm-Smith*, is binding on Ohio courts; thus *Evans*, though more than a century old, remains the last word from the Ohio Supreme Court on the proper interpretation of the issue of the timing of the referendum under Article VI, Section 3.

**Presentations and Resources Considered**

**Morales Presentation**

On January 15, 2015, Stephanie Morales, a member of the Board of Education of the Cleveland Municipal School District, presented to the committee regarding her experiences as a school board member of a large urban school district. According to Ms. Morales, Cleveland’s unique organizational structure, in which board members are appointed by the mayor rather than being elected, has worked well in Cleveland for 17 years because the local community is involved in determining the structure of the board of education. Ms. Morales stated that there is a synergy between the mayor, the superintendent, and the board, which works well. She commented, “Our governing structure creates that synergy. This is why we were able to pass the Cleveland plan. It was unprecedented, and all feel they have a vested interest in what is happening.”

**Baker Presentation**

On May 14, 2015, Columbus Board of Education president, Gary Baker, II spoke to the committee on the importance of the local board of education for urban school districts. In his remarks, Mr. Baker provided demographic data demonstrating the diversity of his district’s student population, the challenges this diversity brings, and the role the school board has in
providing leadership. Mr. Baker noted that Columbus City Schools is the largest school district in the state of Ohio, encompassing approximately 127 square miles, and employing 8,000 staff members. Mr. Baker described the student population, consisting of about 51,000 children, as being comprised of seven different ethnic groups and nationalities, with the first language for twelve percent of the student population being a language other than English. He said over 83 percent of the district’s students are considered economically disadvantaged, while about 14 percent have a disability. Commenting on the transience of the population, Mr. Baker said only one fifth of the students are at the same school for an entire school year. Mr. Baker said the different languages, socio-economic concerns, disabilities, and the mobility of a significant portion of the schools’ population, all create challenges the board has had to try to address in order to determine the best way to allocate and provide the resources needed for each child.

Opining on whether the constitutional language is adequately addressing the needs of schools, Mr. Baker said the current system has served well, and that school boards should be elected by those individuals who reside in the district. Mr. Baker added that those who are elected must share a passion for education, must want to improve teaching and learning, and to focus on student achievement. Mr. Baker said control of local districts should reside at the school board level, and that local power should be retained, indicating if people in a district want a hybrid board or one that is appointed, they should have that option. He said he believes the best school board is one that is elected by residents of the district, but flexibility can be important as well.

Germann Presentation

Eric Germann, board member for Lincolnview Local Schools in Van Wert County, presented to the committee on May 14, 2015 regarding the importance of the local board of education for small and rural school districts. He said the local board plays a vital role in shaping, adopting, and enforcing policy. According to Mr. Germann, in his rural district the board levies, collects, and operates on tax revenue, maintains a balanced budget, and engages the community in developing both budget and tax policies. The board also works with economic development groups and business developers to encourage economic development and growth of the wage and tax base. He added that the board also serves as an arbiter for student and employee discipline, and provides a forum for those who wish to petition the governing body for change.

Steele Presentation

On July 9, 2015, Sue Steele, board member of the Great Oaks Institute of Technology and Career Development (Great Oaks), presented on the value of joint vocational schools. Providing statistics for Great Oaks, Ms. Steele stated that Great Oaks educates approximately three thousand high school students per year, plus thousands of other students through adult education programs.

Ms. Steele explained some of the duties of her board, including hiring and budgeting, identifying possible ballot issues, determining policy, and setting and monitoring goals for the district. She further explained that recent statutory changes could result in future board members being appointed rather than elected, and that board members can be term-limited, both changes that could cause a loss of institutional knowledge. She further explained her concern that, if an
appointed board member does not live in the district and is not involved in the community, he or she may not be as focused on seeing students succeed. She emphasized that elected board members are held accountable by the public, but an appointee is not.

**Haberstroh Presentation**

On July 9, 2015, Albert Haberstroh, board member of the Trumbull County Educational Service Center, presented on the value of educational service centers. As provided in Ohio Revised Code Chapter 3312, and according to the Ohio Educational Service Center Association, these centers support efforts to improve school effectiveness and student achievement by assisting districts and families in obtaining educational and other support services. Mr. Haberstroh said his board provides a variety of different types of assistance to the schools and students it serves. For example, board members assist families supporting students with developmental issues, help students locate resources to prepare for college, provide professional development services for teachers, accommodate transportation needs for special education students, and provide support services in a variety of other ways.

Mr. Haberstroh said he prefers an elected board because having to campaign helps ensure that only those with a strong interest will commit themselves to running. As an example, he noted that an elected board member he knows probably would not have been chosen under an appointive system, but she has been a great asset, providing exemplary, personal service to her constituents. He continued that elected board members belong to political organizations, are active in their communities, and donate to neighborhood organizations that are interested in education. Thus, he emphasized, they are vested in their communities and care about outcomes.

**Conclusion**

Upon review, the committee recognizes that the current state of the law as it has developed around Article VI, Section 3 lends a meaning that could be lost if the section were changed. In addition, the committee finds there is no consensus for changing the section, and no consensus that alternate language could improve it.

Thus, the Education, Public Institutions, and Local Government Committee concludes that Article VI, Section 3 should be retained in its current form.

**Date Issued**

After formal consideration by the Education, Public Institutions, and Local Government Committee on October 8, 2015, and June 9, 2016, the committee voted to issue this report and recommendation on ______________________.

Held on November 5, 2002, the required referendum resulted in more than 70 percent of Cleveland voters supporting a plan that permitted the mayor to make appointments to the Cleveland Municipal School District. The Cleveland Teachers Union and the Cleveland branch of the NAACP supported mayoral control of the board of education. See Patrick O’Donnell, “Mayoral control of the Cleveland city schools has brought stability but other improvements hard to measure,” Cleveland Plain Dealer (Aug. 20, 2011), http://blog.cleveland.com/metro/2011/08/mayoral_control_of_the_cleveland.html (last visited Oct. 5, 2015).
Chairman Readler, Vice Chairman Gilbert and members of the committee, I'm Tim Gorrell, Executive Director of the Ohio Tuition Trust Authority (OTTA), an agency within the Ohio Department of Higher Education. Thank you for the opportunity to speak with you today about the Ohio Tuition Trust Authority, our CollegeAdvantage 529 Savings Program and specifically our Guaranteed Savings Plan.

**Agency Background:**

OTTA was created in 1989 under Ohio Revised Code (ORC) Chapter 3334 to help Ohio families save for higher education expenses. Our first accounts were opened in April 1990.

In November 1994, Ohio voters approved State Issue 3, a Constitutional amendment to provide full faith and credit backing by the State of Ohio for the Ohio Prepaid Tuition Program (now known as the Guaranteed Savings Plan) and to clarify the federal tax treatment of that Plan.

In 1996, section 529 was added to the Federal Internal Revenue Code to provide U.S. citizens with a federal tax-advantaged way to save for college education expenses. Then in 2000, state legislation authorized Ohio to offer variable savings plans which were launched with both a Direct Plan and an Advisor Plan. This same legislation also authorized a state tax benefit that allows Ohio residents to deduct up to $2,000 a year, per beneficiary, from their Ohio taxable income. This deduction includes an unlimited carry forward for contributions in excess of the $2,000 deduction per year.

In December 2003, the Guaranteed Savings Plan was closed to contributions and new enrollments in response to rapidly rising tuition costs and investment pressures due to the market environment.

In 2009, existing legislation was changed to place OTTA under the Department of Higher Education (ODHE) for oversight of agency operations, and the role of OTTA's 11-member Board was limited to a fiduciary duty over the investments in OTTA's college savings plans.

OTTA is a non-GRF, self-funded agency. All of OTTA's operating expenses are funded through account fees paid by CollegeAdvantage Program account owners and no GRF funds are used by the agency.

**Sponsoring and Managing Three Plans:**

The Ohio Tuition Trust Authority currently sponsors three plans under the CollegeAdvantage 529 College Savings Program: (1) the CollegeAdvantage Direct 529 Savings Plan, (2) the CollegeAdvantage Advisor 529 Savings Plan offered through BlackRock, and (3) the CollegeAdvantage Guaranteed 529 Savings Plan, which remains closed to new investments since December 31, 2003.

Funds invested in these plans may be used at any accredited college or university in the country, as well as at trade schools and other education programs that are eligible to participate in federal financial aid programs. Across the three plans, OTTA directly manages or oversees over 641,000 accounts and $9.4 billion in assets as of March 31, 2016.
CollegeAdvantage Guaranteed 529 Savings Plan

In 1990, OTTA first began selling prepaid tuition credits, and later units, which are guaranteed a redemption value equal to 1.15% (for credits) and 1% (for units) of the Weighted Average Tuition (WAT) of the State’s public institutions of higher education. In November 1994, Ohio voters approved providing the Guaranteed Savings Plan with the full faith and credit backing of the State of Ohio. This guarantee means that if assets are not sufficient to cover Guaranteed Plan liabilities, then the Ohio General Assembly will appropriate money to offset the deficiency.

Although the Guaranteed Plan is closed, OTTA is required to continue to manage the Plan investments, maintain the account owner recordkeeping system, provide online account access at CollegeAdvantage.com, process withdrawals and other account transactions, prepare and distribute quarterly account statements and annual tax reports, and provide customer service.

OTTA also has the responsibility to generate investment returns on assets to match any growth in tuition obligations. Currently, if we measure the Guaranteed Savings Plan assets under management against the actual liability, based on the current WAT payout values, we have sufficient assets on a cash basis to meet the payout obligations of the existing tuition units and credits held by account owners. However, as investment returns vary based on market conditions and as payout obligations increase when tuition increases, it is possible for the Plan position to reverse at some point in the future.

As of March 31, 2016, less than 34,000 accounts still hold approximately $287 million in account value in the Guaranteed Plan. The number of accounts is down nearly 69% from a Plan high of over 112,000 accounts as of the end of FY03. This is supported by an investment pool of assets totaling approximately $337 million as of March 31, 2016.

Conclusion

Ohio’s CollegeAdvantage 529 College Savings Program, including the Guaranteed Savings Plan, helps Ohioans and others across the country save over time to help offset the future costs of higher education. In the context of growing concern about rising student loan debt in our country, these savings, no matter their eventual size, help families to make higher education attainable and help tomorrow’s college entrants minimize student loans as they pursue educational and career dreams.

We do not recommend any changes to the existing Article VI, Section 6 of the Ohio Constitution. As stated earlier, the purposes of the constitutional amendment were (1) to clarify Federal tax treatment of the Guaranteed Savings Plan, and (2) to provide the Guaranteed Savings Plan with the full faith and credit backing of the State of Ohio. The Federal tax goal of the provision came from a period of unsettled case law that created uncertainty regarding whether or not similar prepaid tuition programs were exempt from Federal taxation. That uncertainty has since been resolved by the codification of Internal Revenue Code Section 529 which exempts such programs from federal taxation, and therefore the Constitutional provision is no longer necessary to achieve purpose one. With regard to the second purpose of establishing the full faith and credit backing of the Guaranteed Savings Plan, we defer to experts in Ohio constitutional law as to whether the Constitutional language is necessary to maintain that guarantee. We believe as an agency that it is our duty to continue to service the existing Guaranteed Savings Plan account holders and to manage the investments of the Plan in a way that minimizes risk to the State under the Guarantee.

Thank you for this opportunity. I would be happy to answer any questions.

Tim Gorrell, Executive Director
Ohio Tuition Trust Authority

<th>Program Manager</th>
<th>Investment Options</th>
</tr>
</thead>
</table>
| CollegeAdvantage Direct 529 Savings Plan | OTTA | OTTA | Mutual fund based options sold directly to investors.  
| | | | - CDs and savings accounts.  
| | | | - 24 investment options for savers of all income levels, investment experiences, goals, and risk-tolerance preferences.  
| | | | - Low $25 initial and subsequent contributions.  
| | | | - Account owner bears investment performance risk. |
| CollegeAdvantage Advisor 529 Savings Plan | OTTA | BlackRock | Mutual fund based options sold through professional financial advisors.  
| | | | - 23 investment options for investors interested in working with a financial advisor, includes all major asset classes and investments for varying risk-tolerance preferences.  
| | | | - Low $25 initial and subsequent contributions.  
| | | | - Account owner bears investment performance risk. |
| CollegeAdvantage Guaranteed 529 Savings Plan | OTTA | OTTA | Prepaid tuition credits and units, secured by the full faith and credit of the State of Ohio.  
| | | | - Redemption values based on the recent Weighted Average Tuition (WAT) at Ohio’s four-year public higher education institutions.  
| | | | - OTTA-managed investment portfolio must keep pace with tuition inflation.  
| | | | - State bears investment risk.  
| | | | - Closed since 12/31/03 to new enrollments and contributions. |

### Benefits Available In All Three Plans:

- Earnings grow tax-free at both the state and federal level.
- Withdrawals are tax-free when used for Internal Revenue Code 529-qualified higher education expenses.
- Ohio taxpayers may deduct up to $2,000 per year for contributions, per beneficiary, from their Ohio taxable income. Contributions over $2,000 in a year may be carried over to future tax years until they are fully deducted.
- Funds can be used at any accredited college or university in the country (2-4 yr., graduate, or technical; schools that are eligible for federal financial aid).

### Total Value Of Customer Accounts:

- **$4.46 Billion**  
  - 75% of assets held by Ohioans  
  - Private investments of families who chose CollegeAdvantage from among 50 states/107 college savings plans and other investment alternatives.

- **$4.64 Billion**  
  - 37% of assets held by Ohioans  
  - Private investments of families who chose CollegeAdvantage from among 50 states/107 college savings plans and other investment alternatives.

- **$287 Million**  
  - Ohio residency of owner or beneficiary was required at the time of account opening.  
  - State of Ohio is obligated for any deficiency between total assets and plan liabilities.  
  - Market Value of Assets $337 million

### Total Number Of Accounts:

- **641,388** (as of 3/31/16)

### Fund Managers:

- Vanguard, Dimensional, Fifth Third  
- BlackRock, iShares, Rainier, Voya, Wells Fargo  
- OTTA manages the investments of the GSF

### Investment Fees:

- 0% - 0.745%  
- 0.55% - 1.69% (Class A Units)  
- N/A. Fees originally assessed on each sale.

### Professional Services:

- Wilshire Consulting (investments)  
- Wilshire Consulting (investments)  
- NEPC, LLC (investments) and Milliman (actuarial)

### Operational Funding:

- No State of Ohio General Revenue Funds (GRF) are used in the Program. Investment fees cover administrative and operational costs.

### Investment Oversight By OTTA Board:

11 members. Six appointed by the Governor of Ohio; two legislators, one from each party, appointed by the Speaker of the Ohio House of Representatives; two legislators, one from each party, appointed by the President of the Senate; and the Chancellor of the Ohio Department of Higher Education is ex-officio, voting member.
History of CollegeAdvantage

1989: Ohio Tuition Trust Authority (OTTA) was established by the Ohio H.B. 61.

1990: The first college savings accounts were opened in the Prepaid Tuition Program (now known as the CollegeAdvantage Guaranteed 529 Savings Plan). College Savings Bonds offered in conjunction with Ohio Treasurer.

1994: Voters approved State Issue 3, Constitutional amendment to provide full faith and credit backing by the State of Ohio for the Ohio Prepaid Tuition Program.

1996: Qualified Tuition Programs became part of the Small Business Protection Act of 1996. Section 529, created in the Internal Revenue Code, included tax exemption for states and tax deferral to participants.

1997: Additional changes were made via the 1997 Taxpayer Relief Act (room & board added as qualified expenses, special gift & estate tax treatments).

2000: Authorized by Ohio S.B. 161, State of Ohio tax deduction for contributions to CollegeAdvantage took effect. Also authorized variable savings plans; launched with Putnam Investments offering both the Direct and Advisor Plans.

2001: Federal Economic Growth & Tax Relief Act authorized qualified withdrawals from 529 plans to be exempt from federal income tax effective January 2002 (was to sunset in 2010). Exemption made permanent in 2006.

2003: The Guaranteed Savings Plan was closed to contributions and new enrollments in response to rapidly rising tuition costs and investment pressures due to the market environment.

2004: Passive investment options from Vanguard were added for the first time.

2005: Savings and CD options from Fifth Third Bank were added to provide FDIC-insured options.

2009: Significant Direct Plan structure changes were made: Putnam eliminated from the Direct Plan; manager diversification created by adding custom Advantage Age-Based Portfolio, PIMCO, GE Asset Management, Oppenheimer, and additional Vanguard options; and a second Advisor Plan with BlackRock was added. During the same year, OTTA was moved under the Office of the Chancellor, Ohio Department of Higher Education (formerly known as the Board of Regents) (Ohio H.B. 1).

2013: Direct Plan recordkeeping and portfolio fund accounting functions transferred from OTTA to Ascensus College Savings. Oppenheimer investment option eliminated.

2014: BlackRock (Advisor Plan) contract renewed for seven years. Also added two new fixed income options: BlackRock Multi-Asset Income Option and BlackRock Strategic Income Opportunities Option.

2015: Implemented significant investment option changes and enhancements in the Direct Plan (June 19, 2015), reduced the OTTA administrative fee from 0.04% to 0.02% for both the Direct Plan (June 19, 2015) and the Advisor Plan (July 1, 2015), reduced the Direct Plan Vanguard AUM-based fee for portfolio accounting and administration from 0.025% to 0.02% (August 1, 2015), and celebrated the 25th anniversary of the CollegeAdvantage program.

As of 8/1/15

Mission: We empower generations of families in Ohio and throughout the nation to achieve college savings goals for their loved ones by investing with the CollegeAdvantage 529 savings program.

25 YEARS of saving for college

**BY THE NUMBERS**

College Advantage 529 has served over 750,000 beneficiaries, including those who have already gone to college and those who are future college students.

Over 400,000 individuals in Ohio and across the country have owned accounts.

Families have contributed over $10 billion to College Advantage 529 accounts.

Over $4 billion has been withdrawn; 93% of withdrawals being self-reported as used for 529-qualified expenses.

Account owners have identified at least 1,800 schools across the country where funds have been used to pay for qualified higher education expenses.

77% of withdrawals paid directly to schools went to Ohio schools.
